

Installation Mechanic

Do you take pride in your work? Have you been working in a trade or as a contractor for a while and you feel it is time to supervise others, instead of being supervised? We need your talent and expertise!

As a Certified Installation Mechanic, you will be working with our team of technicians to complete our customer's dream project: creating new or updating their fireplace and chimney. The hearth and chimney industry is a rewarding and challenging trade. Don't be afraid to try something new!

We are looking for a career-oriented person who is also family-oriented. Our company values its employees and respects the work-life balance. You will be fulfilled each day by working in a job you can be proud of with great people and then going home with the ability to focus on your family.

This position offers rewarding benefits, **PAID** training, year-round work, and the opportunity for growth. Each Technician has their own company-supplied work truck, tools, and realistic work-load expectations.

Daily Responsibilities:

- Arriving on time to gather all necessary documentation/materials for the day with the master mechanic
- Interacting with the client on the job site
- Taking picture documentation throughout the day
- Planning and installing brand-new high-end fireplace build outs
- Installing high end technical Gas and Wood fireplaces and inserts
- Running mechanicals, gas line, electrical, conduit, etc.
- Installing Chimney Liners
- Performing minor masonry repairs
- Installing Custom Chimney covers
- Making sure we are taking all precautions for yourself and team to be safe on the job site
- Offering the highest level of quality to the customer
- Meeting with the client at the end of the day to go over any questions or concerns
- Taking any payments that are due

Position Qualifications:

- Year-round service and installation of outdoor kitchens, gas fireplaces, wood stoves, and the remodeling work that goes along with it for PA & NJ property owners.
- Construction skills.
- Experience in HVAC, plumbing, masonry, electrical, or general construction are all great backgrounds to build on and get into this growing industry.
- Comfortable on ladders and confidently be able to work on a roof.
- Ability to work overtime during the peak season.
- NFI accreditation required within 1st year

Company Overview:

Fireplace and Chimney Professionals started out in 1999 as a company called Custom Fires. At that time, it was operated under a sole member named Ryan Reed. After many years of working with local consumers and builders we have been able to expand our skill set and staff to accommodate the local demand for quality work. Today we continue to pursue clients that want the best and we strive to exceed their expectations.
